One of our Subscribers wrote: “A pastor we don't know – who turned out to also be very well connected in the city - called to say he had been very burdened to pray for the business and wanted to drive down the following evening to pray for our business. Interestingly, I had already planned to meet with our new Christian sales manager to pray the same evening.When this pastor came he said *the Lord told him to clear his diary and drive to our home (over 100 miles from his base) to be a messenger – or postman he called himself.* He prayed very powerfully over me – anointing my hands with oil – and for the business. He also prayed and prophesied over (my wife). He said he wanted to know nothing about us as the Lord had told him clearly what to say and he didn't want any knowledge of us – he has never met us and knew almost nothing about us – not even the name of the business yet his prayers and prophecy seemed absolutely so accurate it was unreal. The fact that our new Christian Sales Manager was there – as we had already planned that he would meet to pray with me – was the Lord's perfect timing – as he heard the- market place calling on the business and our lives from a total strangerRight now we have a peace that has descended on us – despite the external – that passes all human understanding”

Find me a car park!

Last week I found a useful website - [Parkopedia](#) – where I was able to look at locations, and click on those to see prices and times, of car parks in Bristol, but I see it also covers other places, countries... and languages. If you lose the name, it's listed under “Parking” in the [A-Z](#) on our [Subscriber Services tab](#)

Together, we CAN

Every morning, Monday to Friday, Pat drives a few miles from Clevedon to his friend's farm. Pat, maybe in his early 70's, has got leg problems, and uses a mobility scooter, but can drive. His farmer friend has gone blind and isn't allowed to drive. Pat drives the tractor, while John throws out feed for the cattle. *Simple!

What strengths do you, or your business, have, that might dovetail with the needs in another?

The lighter side...

I named my dog 5 miles so I can tell people I walk 5 miles every day.
